What They Think

Ohina Mail

The Railway Opening To revert to the undertaking whose fruition is to-day being celubrated thought hes not been one of abnormal magnitude, the difficulties linvo been not a few. l'on an engineering point of view there have been many adverso conditions to face-rivers to be bridge limid huge cuttings to by carried through. Then, too, the inysterious factors fengelinis and interference with graves had to be seriously reckoned with but, thanks to the skill and thet of the officials these difficulties have been successfully overcome. As chief engineer, Mr. Frank Grove has had a most onerous and difficult post to fill, but as well in the practical work as in the handling of delicate matters touching native susceptibilities ho has won through in a manner which lasting tribute to British integrity and conciliation. It is particularly gratifying to feel that the difficult question of a working agreement between the two sections has been come to after lengthy negotiation. What is now needed to abstract the best re-ults from the joint enterprises is whole-hearted cooperation for the general good of both. Given this, the future takes on a bright and horeful outlook;

Daily Press.

A Lost Cause We have heard of the discovery of in my royalist plots in the past twelve months pointing to some concerted action, and it is possibly true, as many believe, that the nation remains at heart attached to the monorchic principle, The Powers, however, in formally recognising the Republic aftertwelve months delay, have probably assured themselves that the Republic is firmly established and that whatever plots may be formed for the restoration of the monarchy are destined to be futile. We share the widely-held view that the King's cause was lost by the ignominious manner of his flight, left behind him no imperishable memory of a courageous defence of his throne such as would have his former subjects. Porsonal courage in a King in orises of this kind has always appealed strongly to the people's imagination, and the absence of it must serve to weaken faith not only in the monnreh himself but in the principle of Government he rapresents. While news from Portugal is subject to a strict consorship, many people may resitute to accept the official announcement that the attempt to overthrow the Republic less completely failed, but whatever may le their political sympathies all men will hope that this unhappy country is not to become the

arena of a prolonged civil war. South China Morning Post.

Hongkong and the Railway. What use is the Kowloon-Canton Railway to Hongkong? Many people are asking the question, some of them not without scepticism. Wo think a sufficient answer is not difficult to find, Indisputably, the Colony has suffered tremendously in recont years in its prestigo as a distributing centre on account of the ·levelopment of other important places within easy distance. The Philippines-particularly, on account of the operation of the Payne Trails Bill, have come to the front in direct trading with the United States, and have practically deprived Hongkong of what at one time was a very considerable storage and trans-shipment business. Then we have such ports in the neighbourhood as Canton and the other coast ports, ull'now domanding direct slipment from various parts of the world a demand which has not gine uncatered for, especially. by Japanese shipping.

Shanghal Share Report Mosere. J. P. B. set & Co.

cokly slinre roport, dated Shangtai, Sept. 23, is as follows: The quantity of businoss put through on the Exchange has this week been rather allove the average of the last few. weeks. After the long depression resulting Iron the troubles of last your, the tone of affairs is gradually becoming more normal, and a fair amount of genuino, healthy cash business is boing put through. The chief feature of the week has been tho increasing demand for cottons, which probubly results from the un provement in the local crop prospects and the good demand for yarn. Lingkate also have improved somewhaton last week's quotation. The culput for September is nav-ited-with interestation

Binks,-H. & S. Banks are still n demuid at \$930.

In urance. Stocks are all firm. North Chims improved 2.1-2 points to Tla 162.1-2. Unions were wanted at \$825. Jungtezos are loudy at \$224.

Shipping.-No change. Min'ng.-No change.

Lands. - Shanghui Lands changed hands during the week at Tla. 94 and find buyers at this . figure. -Anglo-French Lands are also wanted at Tla. 94.

Thankations, Thoro is very liule change to report; the market. is stondy with a tendency to lo improve.

Cottons .- Rates of Ewos have recovered from the recent declino. and at present steady at Tls, 90.1-2, Preference Ewos are in domand at Tis. 100. Internationals remain as before with buyers at Tla. 44. Lun Kung Moys have risen. rapidly 6 points and are now in request at Tls. 60: Soy Chees continuo neglected. A rise of 2 peints is recorded in Shanghai cottons and find buyers at Tls. 55. Industrials. Langkats. Afeirly largo business has been done at prices ranging from Tls. 75.1-2 to 114 77 ox div. Lust week's closing-

of Tls. 1.1-2. The market remains Stores .- Hall and Holtz find buyers at \$17.1-2. Other shares under this hording remain an-

quotation was Tls. 76.1-2 cumdiv.

Debentures are still greatly in request with few forthcoming.

The Suzar Market The output of the sugar manufacturing companies in Formosa 🛰 for next year is estimated at 3,000,000 bales, being a great decline compared with the returns this year, rejorts the "Japan Cazette." This is due to the recent he vy storms which have wrought have to the sugar plantations in Formosa. As the result of recent negotiations hetween the Sugar Companies in Formosa and Jupan Proper, it has been arranged that 1,500,000 bales of new sugar shall be supplied to the augur refining companies in Japan Proper, while 1,350,000 hales of refined sugar shall be forwarded to Japan Proper for lirect consumption. The Eusuiko Sugar Manufacturing Company in Formosa is reported to have made arrangements with a certain British firm in London for the shipment to England of 150,000: bales during next year,
